We Need A New Web Site!
Doing Your Web Redesign Right

Introduction

- **Michael Weiss – CEO Imagistic**
 - Internet Marketing and Services Company
 - 10 Years experience developing Web sites for Non-Profits

Plan for your next site Re-design

- The Development Process
- Budget
- Assessing Vendors
- Q/A
- Resources

The Development Process: RFP

- How do I get started...
 - Start by “looking in”.
 - What do you really need?
 - Talk to your people!
 - Out of this document comes an RFP
- RFP Selection Process
 - Get a short list of firms
 - Request “solutions”
 - You’ll have your own criteria – select a firm that’s fits your needs....

The Development Process: Discovery

- Discovery
 - Do it all again....
 - You've missed something.
 - Not a 500 page document
- The deliverable: The Statement of Work
 - Details the BREADTH of the scope.
 - Top Level needs and priorities
 - Parking Lot
 - Paperwork.
 - No Pretty Pictures yet.

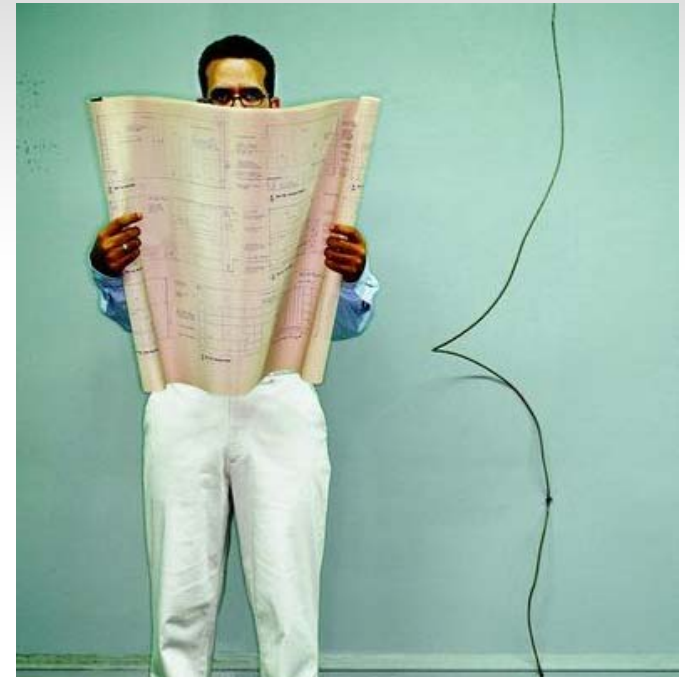

Development Process: Functional Spec.

- Details the DEPTH
- Defines the “what” is going to be built
- Identifies the audience
- Identifies each piece of functionality
- Wire Frames, Content Inventory

The Development Process: IA

- THE most important step in web site design
- Don't skip this step!
- Wireframes are not a site map
- Wireframes are not hand-drawn.
- Sign off on the wire frames – your designer will love you

The Development Process: IA

The Development Process: Design

- Now come the pretty pictures
- By far the most emotional and difficult phase
- The people who said “I don’t care about this” suddenly do
- Keep the cooks in the kitchen to a small group

The Development Process: Development

- The longest phase of the project
- What do you during this phase?
- Your role is to be available for reviews, questions and a little QA

Managing Your WebSite: What Now?

You Redesigned And All You Got Was The T-Shirt

- What Did You Get?
- What Have You Signed Up For?
- One Rant Is Not A Blog
- Guess How Long Till You Get To Do It Again?

This isn't Poker. It's a Partnership

- **Sample Development Budgets**
 - Shoestring: up to \$2,500
 - Small: \$2,500 to \$25,000
 - Medium: \$25,000 to \$50,000
 - Large: \$50,000 to \$100,000
 - Time is money. These projects take time.
 - Negotiate rates but hours are hours. Compare apples to apples
 - \$20 an hour to \$200 an hour.

Do I Need A Vendor?

Chances are the answer is “Yes!”

- What is the Vendor’s Process / Methodology?
- Change orders / Scope management
- Project Team breakdown
- Expectations – yours and theirs
- Experience (with non-profits)
- Specific Answers for Specific problems
- Sense of Trust / Honesty / Fit

Mike's Top 10 Never Do This....

10. Never think this going to take 4 weeks
9. Never think you can do this alone
8. Never skip the IA Phase
7. Never do this without an RFP
6. Never send the RFP to more than 5 firms
5. Never choose a vendor based on price alone
4. Never ask your IT Manager to manage this process this alone
3. Never start without a budget in mind
2. Never start this process without key stakeholders involved
1. Never hire your boss' nephew
